

Zirkona

Zirkona is a mounting solution that gives you more. Maximum versatility, flexibility and durability.

Benefits:

- Holds a variety of devices
- Multi-configurable
- Withstands industry wear and tear
- Moves all-axis for convenient device use
- Available in three different sizes

Large

Holds up to 11 lbs.
(5.0 kg)

Medium

Holds up to 6 lbs.
(2.8 kg)

Small

Holds up to 3 lbs.
(1.4 kg)

* Extension tube will lower the overall payload rating of the joiner. The longer the extension, the lower the overall rating for the joiner.

To configure your solution you must select a kit, a device plate and a base plate

With an all metal construction, all axes movement and ability to hold a wide range of devices, Zirkona is more versatile, more durable and more flexible.

- Numerous mounting plate designs for device adaptation – use with ultramobile PCs, handheld devices, PDAs, smartphones and scanners, telematics and more
- All metal construction (anodized aluminum) will not deform or degrade
- MIL-810F tested
- Quick adjust handle for easy adjustment to position the device at the desired angle
- All axes range of motion in X axis (left/right), Y axis (front/back) and Z axis (up/down)
- Multi-Configurable - extension tubes of various lengths work to achieve desired reach
- Encapsulated ball design offers theft deterrence
